It is the little things of life that count.

The glance of a woman's eye.

The slightest pressure of a hand.

Such winning signals, quiet off-hand.

Put man and maid in ecstasies.

And pave the way for a fortune, alas!

LET HIM COME!

Can Get the Information He Wants From Good Democrats.

A dispatch from Frankfort says that Assistant Adjutant General Murray has ordered Major J. Embury Allen to investigate the conduct of Captain Longmire and Sergeant McClure in this city, who deny the newspaper reports of their escape.

Major Allen will receive a cordial welcome here and will have no trouble in establishing the truth of every statement made in this city, and that by good Democratic authority.

In this connection, THE LEDGER is in receipt of a private letter from Greenup, which says Longmire and his companion stopped at the Greenup House and paid their bill of \$1 with an order on the State Treasurer, which the Democratic hostess offered to sell for 50 cents, with no takers.

POWER OF BOXERS

The Sect Embraces Not Less Than Four Million People All-Well Manipulated.

SEVERE FIGHTING HAS TAKEN PLACE

Reports Conflict, One Saying That Many Boxers Were Killed, Another Says They Were Successful.

European Guards Have Not Taken a Hand in the Fighting, but are Ready to do so at a Moment's Notice.

London, June 9.—Definite returns regarding the severe fighting between the Chinese troops and the Boxers, that was going on at Tien Tsin, Tien Tsin and Pekin, had not been received at Tien Tsin when the latest telegram to reach London was filed. The Chinese troops, however, had killed many Boxers, according to some reports, while another account and the government's official statement in an engagement near Pao Ting Fu. Apparently the legation guards have not yet taken a hand in the fighting, but they are ready to do so at a moment's notice. The Boxer movement affects some hundreds of square miles. Official dispatches to Vienna from Pekin aver that the Boxers are more powerful than any political party in China, embracing no less than 4,000,000, and manipulated by zealous and ardent men.

The representatives of the powers are still sitting in perfect concert, which appears for the present to give the Chinese government no reason to put down the disturbance alone. The Tien Tsin correspondent of the Daily Mail, telegraphing June 7, says: "For the last three days the whole community of Tien Tsin has been preparing to defend itself against an expected attack by the Boxers. There is a continual influx of refugees from the surrounding country, who are now crowding the city. This increases the excitement. Nearly all the villages surrounding Tien Tsin are joining the Boxer movement, which is taking more and more a fanatical character."

"Hundreds of foreigners, when approaching the villages, are driven back by armed bands. Yesterday the Chinese troops were ordered to attack, on the Grand Canal, within 20 miles of which a large body of Boxers is reported to have gathered. Attempts to re-establish the regular working of the Pekin-Tien Tsin railway have hitherto proved futile. Every night the houses are set fire to, and the work of the woodwork of the bridges."

"Sen. Noh seems bent upon acting with energy in dealing with the Boxers to the rebels, recognizing the necessity of destroying the prestige of the Boxers, which has been to demoralize his army."

Secret orders from Pekin, the protector of the rebels, have paralyzed military action and raised the status of the Boxers in the eyes of the ignorant masses. Although the Boxers declare their first object to be the annihilation of Catholicism, converts, and wire pupils, evidently wish to propagate hatred among the country people against foreigners and things foreign in general. The Boxers on the surface has a patriotic character, but it may turn ultimately against the dynasty. This seems to be the reason why it has thus far been treated with a gentle hand.

NEW PROBLEM FOR EUROPE

England and Russia Acting Together, May Be Able to Secure the Chinese Throne.

London, June 9.—The Spectator, commenting on the Chinese difficulty, says it considers that if the situation becomes acute, the "only alternative to a European coalition, which will be effective only in theory for the sake of England and Russia to act together in a definite agreement."

The paper adds: "They alone possess physical power near enough to the scene to be of immediate use. England could in this case use her Indian troops."

Continuing, the Spectator strongly opposes any partition of China, and thinks it unsafe to assume that the Chinese soldiers can do much.

It adds: "The court of Pekin is in action the most ineffectual in the world, but it may find a Wallenstein who will not stand his ground, and then Europe will have a new problem to solve."

Colorado Instructs for Bryan.

Denver, Colo., June 9.—The democratic state committee, headed by Charles S. Thomas and T. J. Maloney of Denver; A. T. Gunnell, of Colorado Springs; and Charles Henkle, of Pueblo, an delegate-at-large to the national convention, and instructed them for Bryan and the Chicago platform.

Killed Himself Without Cause.

Santiago de Cuba, June 9.—Donnic Lindenthal, the Austrian superintendent of the Guama mines, committed suicide by shooting. There was no apparent reason for his taking his life. He formerly lived in Pittsburgh, Pa.

Treasury Statement.

Washington, June 9.—The statement of the treasury balances in the general fund, exclusive of the \$100,000,000 gold reserve in the division of redemption, shows a deficit of \$1,414,774,271; gold, \$72,218,000.

NO SETTLEMENT NEAR.

The striking Carmen at St. Louis Are Preparing for a Long Siege—Hooting Continued.

St. Louis, June 9.—At noon when headquarters it is announced that the striking carmen are preparing for a long siege, in the belief that the element of the strike is not near at hand. The subscriptions which have been received are being distributed among the various divisions, and the division committees are also actively at work in providing for the needs of the strikers.

A mob of furious women and boys last night bent and denuded Leon Kaenter, a young woman who makes her living by peddling lunches among employees of the California avenue street car line. When the mob had stripped her to the waist one woman dashed her with green paint, while two others held her, the beating boys and women of the mob applauding the outrage and throwing mud.

Two shop girls were attacked by the same mob an hour later, and they also were partly denuded before they escaped.

An organized "committee" of women came to visit the public schools, entering the school rooms, accusing the teachers of riding on the tubercular cars, and threatening them with bodily harm if they did so again. At the Mt. Pleasant school the leader of this committee seized the principal, Mrs. L. Panning, shook her violently and announced that she would be tarred and feathered if either she or any of her teachers rode on the cars again.

P. L. Tyler and Charles Chapman, striking employees of the St. Louis Transit Co., boarded a Sixth street car, and attacked the nonunion crew. In the scuffle Tyler sustained severe injuries on the head, and Chapman was cut on the right eye and stabbed in the abdomen.

Seven deputy sheriffs were arrested at the North Broadway power house. It is claimed that they forced a ride on Broadway cars for the purpose of protecting the Transit Co. property. All of the men stated in their petition to "serve that they were tired of sleeping with nonunion men and protecting property interests which in their opinion should be protected."

LEAPED FOR LIBERTY.

A Murderer Jumps From the Suspension Bridge in Cincinnati Ninety-two Feet to Escape Arrest.

Cincinnati, June 9.—After deliberately murdering a defenseless tramp in the ravine below the Lockwood boom, which has been an asylum for wayfarers and criminals for years, Wm. Harris, of St. Louis, and Wm. Lyons, of Lawrence, Kan., leaped from the suspension bridge by means of their own hands, and escaped arrest.

The two men were being pursued by the police, and were approached by the suspension bridge by others from both ends. One of the drew his revolver and began shooting, but the other ran to the railing and leaped over into the river, 62 feet below. He swam ashore, where officers met him, and a desperate struggle took place before he was arrested and locked in jail.

Five other tramps who had been members of the colony below the bridge, and who were captured after the leap, are also in jail. The two men were being pursued by the police, and were approached by the suspension bridge by others from both ends. One of the drew his revolver and began shooting, but the other ran to the railing and leaped over into the river, 62 feet below. ON VAN WIKE HILL

Gen. Buller's Forces Have Made an Advance and Seize an Important Position.

CAN MAKE LAINGS NEK EXTENSIBLE

He Reports His Casualties as Quite Small, Being Only Four Killed and Fifteen Wounded.

Lord Roberts has Made No Report for Three Days or Permitted the Correspondents to Write as to What is Going On.

London, June 9.—The war office has received the following dispatch from Gen. Buller:

"Yellow Boon Farm, June 8.—On June 6 I rode Talbot Cole, with the tenth brigade and the South African light horse, seized Van Wike hill. The enemy made some resistance, and a good deal of sniping occurred. Our casualties were about four killed and 13 wounded."

"During that day and the following we got 47 and two 12-pounder guns, and a good deal of sniping occurred. Our casualties were about four killed and 13 wounded."

"The attack, which was well planned by Buller and carried out with immense dash by the troops, for whom no mountains were too steep, outflanked the enemy, who were

forced to retire from their very strategic position.

"I think we did not have any casualties, and I hope I have obtained a position from which I can render Laings Nek untenable."

Lord Roberts has communicated through three days, nor permitted the correspondents to write what is going on. London's inference is that he is resting, although he is possibly disposing his army for a reach after Commandant General Botha.

A blockade of the wires, owing to the crush of official correspondence, may account for the scanty press dispatches. Some telegrams filed a week ago are only just now arriving.

Among these are spirited descriptions of the fighting at Elmdorff. According to one of them, the streets were filled with women and children. Rifle shots could be heard everywhere. The British soldiers would stop firing and join in the chase after the Jewish stores, and mounted infantry galloped hither and thither.

DEWEY DENIES IT.

He Says He Never Had Any Correspondence With the Leader of the FILIPINOS.

Detroit, Mich., June 9.—Adm. Dewey was shown the statement made by the Manila Times concerning an alleged recovery by Gen. Funston's men of a portion of the archives of the Filipino rebel government, which, it was claimed, contained certain correspondence between Aguinaldo and Dewey.

After reading the statement Adm. Dewey positively denied ever having written Aguinaldo. Said he "never wrote a letter to Aguinaldo in my life. Whenever we were in the Philippines, I sent for him. He was employed by me for certain purposes, just as I employed a lot of other people among the natives. I made him no promises. If there had been 5,000 American troops with me in the beginning to occupy the city and maintain order, there would never have been the trouble."

Philippine Leader Captured.

Manila, June 9.—Gen. Pio del Pilar, the Philippine leader, has been captured near Manila.

FOUGHT AT GREAT ODDS.

Thirty-one American Soldiers Held Six Hundred Insurgents at Bay for Four Days.

Washington, June 9.—Perhaps the most thrilling and picturesque incident of the entire Philippine war occurred at Catubig, on the island of Samar, where, on April 13 last a party of 31 enlisted men of Company K, 42d volunteer infantry, held at bay a force of some 600 insurgents during four days of fierce fighting, reinforcements arriving just in the nick of time.

The war department has received reports from Capt. H. M. Day, of the 42d volunteer infantry, and First Lieut. J. T. Sweeney, of that regiment, who commanded the rescue party, giving all the details of the attack, the siege and the relief.

According to these reports, the attack on the garrison at Catubig began without warning on Sunday morning, April 13. From the hills on all sides from every point of vantage in the town and from a deserted church directly adjoining came a rifle and cannon fire of terrible intensity.

On Tuesday morning handfuls of burning hemp were thrown into the barracks from the insurgents in the church, and soon the soldiers' refuge was on fire. All efforts to subdue the fire failed, and the little line of barracks made a dash for the river bank. Some were killed before the bank was reached; others fell dead in a boat in which they were attempting to make the opposite shore, and when a trench finally was dug with bayonets there were only 16 of the 31 left to man it.

Here for two more days Capt. Carson, handling his men with the judgment of a veteran, held out under a terrible fire until Lieut. Sweeney's command, which had been ordered to supplement the garrison at Catubig

Before the men entered the ring even money was offered that Kenny would stay five rounds.

SHELLROCK.

Pastures never were better than they are at this time. There is some complaint of the peaches falling off. The oat crop will be short unless we have plenty of rain from now on. The Smith brothers have purchased a tobacco store, the only one in the neighborhood. School-teachers are getting to be numerous. There seem to be more teachers than schools. We have had a fine tobacco season in this section, a number of farmers getting their crop out in May. Something unusual. Mrs. James Farnen and daughter, Miss Hattie, and Miss Lucy and Ella Day met at the Church at Plumville one day last week. When they were through with it, it shone like a silver dollar. Thanks to the good ladies. Some of the folks seem to think the "yellow" snake story was gotten up for a hint to keep people out of the raspberry patch in the Truesy Hollow. Well, we have given you fair warning and if you will go and get snakebit it will be your own fault. Witnesses have been summoned up here again, making about the forty-seventh time, on that famous Moran and Higgins land suit. It's an outrage on the Court, on the people and every body else. The parties ought to be banished to Bloody Run. One of our neighbors tells a pretty good one on himself. He says the first time he ever took a girl hunky riding was on the other side of the river. When he drove up to a long covered bridge he concluded he was too big to get through and drove around. Just as we met a couple of young gentlemen opposite the residence of John S. Walls on last Sunday afternoon, a large peacock was concealed in the wheat field near the road. The bird gave a loud yelp or two and one of them said to the other, "What the devil is that?" "Don't know," said his partner, "stop and let's see." Actually the boys were badly scared, as they eyed grow big, while the bird stood almost straight on their heads as they looked for the varmint. The Sunday-school at Plumville is getting along nicely. It has grown in number and numbers each Sunday since it was organized. Including officers, teachers and scholars it is now thirty-seven, which is pretty good for a country Sunday-school. Nothing will be left undone to make the school interesting during the next quarter. Every child, young lady, young man, father and mother are cordially invited to come out next Sunday evening at 8 o'clock to clean house. Good order, good singing, good lessons and good treatment for every body is its motto.
